

DEFENDER™ F150 FLASH DRIVE

ADVANCED SECURITY

Imation Defender F150 Flash Drive offers a fast and efficient hardware-dedicated security processor that provides advanced portable security through on-board AES 256-bit hardware encryption, authentication and manageability. FIPS 140-2, Level 3 validation meets the highest government standards. It also provides hardware protection against malware in any environment. The innovative tamper-resistant metal enclosure acts as an integral case, which is waterproof and dustproof, meeting the needs of government, military, financial, healthcare and other enterprise organizations.

FEATURES + BENEFITS

FIPS 140-2, Level 3 Validated

Meet the most demanding regulatory requirements for the Federal Information Processing Standardization (FIPS) 140-2, Level 3 validation with the Imation Defender F150 Pivot Flash Drive.

Level 3 - This level exceeds Level 1 and Level 2 requirements, and adds physical tamper-resistance and identity-based authentication.

AES 256-bit Hardware Encryption

Protect your data with the hardware-based AES 256-bit hardware encryption implemented in Cypher Block Chain (CBC) mode activated every time the USB flash drive is in use. The Imation Defender F150 USB Flash Drive is compatible across multiple platforms without administration or installing software or drivers.

One-factor Authentication - Strong Password

Establish an authentic password to create an identity on the Defender F150 Flash Drive. By creating a strong password, you increase the level of security protecting your data-at-rest. Includes Administrative controls to manage up to 10 users, and robust support for complex and custom password policies including length, special characters, expiration and more.

Optional Features

Antivirus Software

Protect against viruses, worms, and other malware threats with on-board antivirus software constantly monitoring file transfers to the portable storage device.

Central Management Software

Streamline provisioning, customize security policies, deploy and manage secure portable devices across networks and security environments.

TECHNICAL SPECS

CAPACITIES:

1GB, 2GB, 4GB, 8GB, 16GB, 32GB, 64GB

SIZE:

12.5mm X 21.5mm X 76mm
(0.49" x 0.85" x 2.99")

SYSTEM COMPATIBILITY

Windows® 7/Vista/2000/Windows®/XP
Mac OS™ 9 or higher

STANDARDS AND CERTIFICATIONS

FIPS 140-2 Level 3 Validated
USB 1.1 and 2.0
FCC
CE
WEEE Compliant
RoHS Compliant

INTERFACE:

USB 2.0 (1.1 compatible)

WARRANTY:

5 Years Limited

TRADE AGREEMENTS ACT COMPLIANT (TAA)

Designed and Assembled in U.S.A.
