

KOBRA STICK VS (KSVS-1FF)

Encrypted USB-C flash drive

Full-Disk Encryption

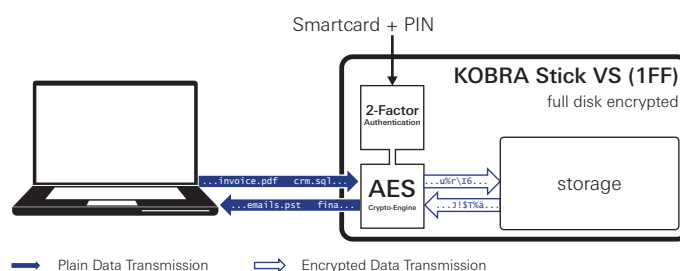

256-bit AES full-disk hardware encryption in XTS mode using two 256-bit crypto keys

Access Control

Two-factor authentication via smartcard and PIN according to the principle "having and knowing"

Crypto Key Management

Administration of the cryptographic keys by the Users: Create, Modify and Destroy

**Approved by the German Federal Office for Information Security (BSI)
for government classified information up to NATO RESTRICTED and EU RESTRICTED**

KOBRA Stick VS (KSVS-1FF) is an encrypted USB-C memory stick that is state of the art. The product enables the GDPR compliant storage, retention and secure transport of sensitive, personal and confidential data up to the classification Level German VS-NfD, RESTREINT UE/EU RESTRICTED and NATO RESTRICTED for authorities and companies.

In addition to DIGITRADE smartcards, PKI-based plant, service and troop ID cards can also be used for authentication. In terms of confidentiality, all data stored on the KOBRA Stick VS is thus protected against unauthorized access in case of loss or theft.

Further safety functions:

- Distribution of roles between administrator and user
- Management software Kobra Client VS
- External generation and calculation of crypto-keys on the smartcard
- Automatic encryption of all data in real-time
- Automatic formatting after key change
- Write protection mechanism
- Time out function (1 to 30min)
- Lock-Out and Quick-Out functions
- Sturdy metal housing protected against splash water

Optional configurations:

- Laser engraving of logo, inventory numbers, scanable QR codes, designations or similar according to customer
- Custom USB VID, PID & Serial Number
- Windows To Go
- pSLC memory

Technical information:

- Integrated power supply
- Execution of many functions without PC connection
- Simple operation, maintenance and support free
- Modern USB-C connection
- Compatible with USB 3.0 & 2.0
- Operating system independent and bootable
- No performance limitations
- Read/write speed: up to 120 MB/s
- Capacities: 16 GB to 512 GB MLC memory
- Smartcard in chip card format
- Up to 10 smartcards (PKI cards) can be integrated

Security certificates:

- Approved by BSI for German VS-NfD, RESTREINT UE/EU RESTRICTED and NATO RESTRICTED - BSI-VSA-10338
